

Uninstall vCenter Proxy

Follow these steps to uninstall the vCenter Proxy:

GUI: Go to your Control Panel, select Programs and Features (or Add/Remove Programs), and uninstall the “Cloudamize Proxy” program.

Command-line:

- The following command will uninstall the Cloudamize Proxy quietly. Run it as administrator.
 - `msiexec /x msi_file /qn`
 - e.g., `msiexec /x CloudamizeProxy.msi /qn`
- The following command will uninstall the Cloudamize Proxy via WMI
 - `wmic product where name="Cloudamize Proxy" call uninstall`
